

# 脳卒中予防・治療戦略 国際シンポジウム

～健康寿命延伸への貢献～

International Symposium on Stroke  
—Innovation for longer healthy life—

Translational  
Research  
Informatics Center

日時 平成 28 年

**10/29** [土] 9:30～17:00

World Stroke Day (世界脳卒中デー)

場所

**JA 共済ビル  
カンファレンスホール**

東京都千代田区平河町 2-7-9

主催

公益財団法人先端医療振興財団 臨床研究情報センター

代表世話人

松本昌泰 (JCHO 星ヶ丘医療センター 院長)

## 会場アクセス

東京メトロ有楽町線、半蔵門線、南北線  
永田町駅4番出口 徒歩約2分

**参加  
無料**

先着**200**名 ※事前申し込み必要

お申込み → <http://www.tri-kobe.org>

▶同時通訳あり [日本語 ↔ 英語]

# 5th World Centenarian Initiative International Symposium on Stroke —Innovation for longer healthy life—

date : 2016 10/29 sat 9:30~17:00  
venue : JA KYOSAI BUILDING CONFERENCE HALL

informatics Center

## ◆Program (同時通訳あり[日本語 ↔ 英語])

### 9:30-9:35 Opening remarks

Masayasu Matsumoto (Hoshigaoka Medical Center)

### 9:35-10:00 Keynote address

- ▶ Current status of the recurrence of non-cardiogenic strokes and the future prevention of stroke in Japan  
Norihiro Suzuki (Keio University)

### 10:00-10:25 Special address

- ▶ Healthier longevity and prevention of stroke  
Koji Miura (ex-Director General, Health and Welfare Bureau for the Elderly, MHLW)

### 10:25-11:55 Session I : Risk factors and biomarkers for the prevention of stroke

Chair : Hiroyasu Iso (Osaka University)

- ▶ Risk factors and biomarkers for stroke prevention Kazuo Kitagawa (Tokyo Women's Medical University)
- ▶ Stroke risk factors and prevention Masahiro Kamouchi (Kyushu University)
- ▶ Stroke registry in stroke translational research Jiann-Shing Jeng (National Taiwan University, Taiwan)
- ▶ Transient ischemic attacks (TIA) revisited: Clinical significance and management Yong-Seok Lee (Seoul National University, Korea)

### 11:55-13:00 Lunch Break

### 13:00-14:05 Session II : Advances in cerebrovascular biology and neuroimaging of stroke

Chair : Hidekazu Tomimoto (Mie University)

- ▶ Translational stroke research: A personal perspective Marc Fisher (Harvard Medical School, USA)
- ▶ Advances and future aspects of endovascular treatment of stroke Hiroshi Yamagami (National Cerebral and Cardiovascular Center)
- ▶ Intracerebral hemorrhage and deep microbleeds associated with cnm-positive streptococcus mutans; A clue to developing a new preventive strategy Masafumi Ihara (National Cerebral and Cardiovascular Center)

### 14:15-15:20 Session III : Acute treatment

Chair : Kazuo Kitagawa (Tokyo Women's Medical University)

- ▶ Acute treatment in stroke Kazumi Kimura (Nippon Medical School)
- ▶ Magnetic resonance in acute stroke Hironaka Igarashi (University of Niigata)
- ▶ The role of neuroserpin in cerebrovascular diseases —from bench to bed Liang Wang (Fudan University, China)

### 15:30-16:55 Session IV : Neuro-recovery and rehabilitation

Chair : Ichiro Miyai (Morinomiya Hospital)

- ▶ Intravenous transplantation of autologous mesenchymal stem cells derived from bone marrow into stroke patients Osamu Honmou (Sapporo Medical University)
- ▶ Intra-arterial stem cell therapy for acute ischemic stroke Soma Banerjee (Imperial College Healthcare NHS Trust, UK)
- ▶ Cybernetic neurorehabilitation using Hybrid Assistive Limb (HAL) for the patients with neuromuscular and cerebrovascular diseases Takashi Nakajima (Niigata National Hospital)
- ▶ Restoration of post-stroke upper limb paralysis with BMI neurorehabilitation Meigen Liu (Keio University)

### 16:55-17:00 Closing remarks

Masanori Fukushima (Translational Research Informatics Center)
